REB'S ROBOT RENTAL

Is there a robot in your life??? There should be. "Garcan" and "Robo" are shown here. You can rent one of these robots for any occasion.

Robots make great conversation. That's right - our robots can talk. Liven up parties, grand openings, special sales, etc. with one of our robots. We rent by the hour and provide the robot and an operator. Rates start at \$35.00 per hour. You may charge your robot rental on your VISA or Master Charge card.

If you feel that owning a robot is to your advantage, let us custom build a robot to suit your needs. Price depends on options you select. (lights, sound, voice, etc.) average price - \$3,000.00. Call or write for details.

Jerry: **TED** -

I enjoyed talking to you earlier today. Enclosed is a brochure on my Robot rental business. GARCAN and ROBO are shown in the photo. GARCAN is also on the back of the business cards.

I went with radio control since it is a little cheaper than processor control and it is also better suited for use in public where the floor layout is always different from job to job. With a processor, we would spend more time re-programming at each location so that the Robot would know where to go and not to go.

The construction of GARCAN is easy and the parts are pretty common. The construction manual will show photos of our layout and give approximate dimensions. The builder will have to adjust his layout a little since there is variance in the trash cans that are available. I also hope that builders will use imagination and make their cans different.

Hope you like the idea and tell your friends. I wrote David Ahl today and sent some literature. If you hear anything from him let me know.

Thanks for your interest.

Sincerely,

Jerry Rebman
